- Android Studio
- Git & Github
- Visual Studio
- Qt Creator
- React
- IntelliJ
- Postman
- Swagger ui
- Packet Tracer

Databases:

- SQL
- Oracle
- MySQL
- PostgreSQL
- MongoDB

Operating Systems:

- Linux
- Widows

PROJECT EXPERIENCE

MORTGAGE CALCULATOR

Using Android Studio 2021 May - August

Language: Java Database: MySQL

- It is a simple mortgage calculator that helps the user determine the monthly repayments based on their salary, amount they choose and time they need to finish paying.
- It saves calculated and decision data on device in a txt file
- Used the database to store user login details

STOCK/INVENTORY MANAGEMENT SYSTEM

Using Visual Studio 2022 July - November

Language: C# Database: MS SQL Server

- A simple system for the user to keep track of incoming and available stock displaying with pictures
- Used database to save User details, items and pictures entered

PERSONAL PORTFOLIO WEBSITE

Using VS Code 2023 May - Present

Language: HTML, CSS, JAVASCRIPT

- Contains my information, services and projects I have done.
- Ways of contacting me
- <https://harmonyclxx.github.io/HarmonyMupindu/>

A RESTFUL API

Using IntelliJ 2023 July - Present

Language: Java Database: MySQL

- The API is for an Android login system
- Used Swagger ui and Postman to test
- It allows the user to register keeping their details in the database.
- it allows users to login using username and password
- it allow the users to delete their profiles
